Person Requesting Evaluation:_____

Send Bill and Evaluation to:_____

\$65.00 Water Sample (MMO MUG test) – _____

An MMO MUG **test** shows the general presence or absence of total coliform and E. coli bacteria. The test does not identify any specific pathological (illness causing) bacteria. **The results are reported as either positive or negative.**

\$75.00 Water Sample (Quanti-Tray test) – _____

The Quanti-Tray test reports the most probable number (MPN) of bacteria in the water sample, which includes E. coli. **The results are reported in a numeric value that provides a baseline regarding the cleanliness of a water system; consequently, it can be used as a baseline for future sampling.**

Other sampling available

\$10.00 + lab fee for additional samples taken at same time as other samples...

_____ Nitrate (\$25 lab fee) _____ Nitrite(\$25 lab fee) _____ Lead(\$10 lab fee)
